FOR BUSINESSES CONVERTING $0.5M+ A MONTH

Find out what FX really costs you. Then fix it.

Banks build their margin into the exchange rate, so it never appears as a fee. We measure it independently, show you the annual cost, and help you close the gap when you're ready.

1 · START HERE

FX audit

£299 one-off

We analyse your last full month of transfers: what each conversion really cost, by currency pair, and the annual figure, in a full written report.

Credited against monitoring if you continue.

2 · ONGOING

FX monitoring

£199 /month

A monthly report on your main routes: what you paid, whether pricing moved, deductions spotted and the running cost of the gap. Quarterly board summary. Keep your bank.

3 · WHEN YOU'RE READY

Introduction and onboarding

£999–£1,499

Introductions to vetted, regulated providers. We join the calls, negotiate your pricing and see you through onboarding. One-off fee; monitoring clients pay £999.

Monitoring terms

Monthly, cancel anytime. Annual: £1,990, two months free. Covers up to three currency pairs and one statement upload a month.

What a typical audit finds

1.5–3.5%

Typical bank margin on business FX

0.40–0.70%

What a specialist provider typically charges (volumes of up to $3m per month)

$60k a year

If you're paying 50 bps too much on $1m a month

Find out what FX really costs you. Book your audit.

multibanx.com

Multibanx is an advisory and introduction service, not a bank or financial institution, and is provider-agnostic: benchmarks reflect market pricing and no provider receives preferential treatment. Multibanx charges the fees shown above and may also receive a revenue share from a provider you choose. Nothing here is financial advice. Prices exclude VAT where applicable.
